IT HEALTH INFORMATICS SPECIALIST

Objective

Health Informatics student at George Brown College with strong technical support and IT administration experience. Skilled in system setup, software troubleshooting, network monitoring, and data management, with hands-on knowledge of programming (Python, Java, JavaScript) and cloud tools (AWS, Firebase). Seeking an IT Co-op/Intern role at Survalent Technology Corporation to apply technical skills, support employees, and enhance IT system efficiency.

Highlights of Qualification

- **IT Support & Troubleshooting:** Assisted users with software, hardware, and network issues; configured and maintained computers and applications.
- **System Maintenance:** Applied updates, patches, and security protocols; monitored system performance and data integrity.
- **Software & Programming:** Experience in Python, Java, JavaScript, React.js, Node.js, SQL, and databases.
- **Data & Documentation:** Collaborated with Excel, SQL, and Microsoft 365 tools.
- **Collaboration:** Worked with cross-functional teams to integrate technology and streamline processes.
- **Healthcare IT Knowledge:** Hands-on experience with EMR/EHR systems (Arya, Epic) and compliance standards (HL7, FHIR, PHIPA).

Technical Skills

Programming & Frameworks: Python, Java, JavaScript, TypeScript, React.js, Node.js, Flask

Databases & Cloud: MySQL, PostgreSQL, MongoDB, Firebase, AWS

IT Tools & Systems: Windows OS, Microsoft 365, Git, GitHub, Agile/Scrum practices

Healthcare IT: Arya EHR, Epic (training exposure), HL7/FHIR standards, PHIPA compliance

Education

Information Technology (Certificate)

May 2025 - Dec 2026

York University, Toronto, ON – IEP Bridging Program

- Learned Java programming and object-oriented design.
- Built web and console apps using Java and SQL.
- Studied database design and data management.
- Gained knowledge in networking and systems analysis.
- Worked on team projects simulating real IT environments.

Health Informatics (Postgraduate)

May 2025 - April 2026

George Brown College, Toronto, ON – Ontario College Graduate Certificate

- Conducted workflow and data analysis projects using R and Python.
- Completed simulation labs using Arya and Epic workflows for clinical documentation and integration.
- Developed data governance and interoperability reports following HL7/FHIR standards.
- Delivered team presentations on clinical decision support and health IT evaluation.

Software Engineering

Sep 2012 - Oct 2016

Baghdad COES University, Baghdad, Iraq – Bachelor of Science

- Developed full-stack web applications and implemented database-driven systems.
- Focused on system design, algorithms, and software optimization.

Professional Experience

Service Porter / Customer Service

July 2025 – Current

BMW Toronto, Toronto, ON, Canada

- Managed client interactions, ensuring workflow accuracy and strong communication.
- Processed and maintained confidential customer data in alignment with privacy standards.
- Supported process efficiency and service reporting for management teams.
- Communicate with clients, providing timely updates and addressing concerns as needed.
- Tag vehicles with ID and print service history reports to ensure accurate tracking and transparency.

Volunteer Experience

IT/Web Developer (Volunteer)

November 2024 – Current

LetsStopAids, Toronto, ON, Canada

- Developed internal tools and supported system integrations using JavaScript and SQL.
- Automated data workflows and optimized front-end components for performance.
- Documented IT procedures, supported user training, and maintained Microsoft 365 security compliance.

Professional Development and Certifications

- IBM Data Analyst Professional Certificate – July 2025
- Certified AWS Cloud Practitioner – August 2023
- Agility with Scrum Fundamentals, ICAgile – May, 2024
